NUST Cyber Security Team Selection

Last year DFISRC conducted the first Namibia National Cyber Security Competition and the NUST team won after competing with UNAM. UNAM defence team won and the NUST attack team won but overallly NUST won. Eventually the NUST team participated in a national competition in the USA. This year there will be more teams participating.

In building up to the competition this year DFISRC is inviting interested computer science students who are majoring in cybersecurity or those who aspire to major in cybersecurity to submit a paragraph of not more than 300 words describing why they want to be part of the NUST cybersecurity team and why you should be selected as a team member. In your paragraph include also your area of speciality or anticipated area of speciality such as linux, system admin, network security, systems audit, etc.

Include your name, student number and the program you are registered for.
