

Faculty of Engineering

Contact: Ms Jean Kazimbu
T: +264 61 207 2829
E: jkazimbu@nust.na

Department: Mining and Process Engineering

Professor: Mining Engineering

Requirements

A Doctorate (NQF Level 10) in Mining Engineering or a related qualification in Engineering with at least seven years of lecturing experience at tertiary education level and/or industry experience or an equivalent combination of relevant professional experience. Excellent English communication skills (oral and written). Proven competence in successful sourcing of research or project funding from third-party sources, successful initiation and management of research projects, curriculum development and strong management/organisational and mentorship skills. Competence to teach at both under- and post-graduate levels in at least three of the following courses: Underground Mining, Mine Planning and Design, Operations Research and Mine Machinery. Competence to assume academic leadership, to establish professional networks, and to maintain links with industry, as well as experience in developing postgraduate programmes. Sound research profile including twenty peer-reviewed journals/books/conference proceedings and successful supervision of at least three Master's and one Doctoral (research) students.

Senior Lecturer: Extractive Metallurgy

Requirements

A Doctorate (NQF Level 10) in Metallurgy or a related qualification in Engineering with at least six years of lecturing experience at tertiary education level and/or industry experience or an equivalent combination of relevant professional experience. Excellent English communication skills (oral and written). Proven competence in successful sourcing of research or project funding from third-party sources, successful initiation and management of research projects, curriculum development and strong management/organisational and mentorship skills. Competence to teach at least three of the following courses: Pyrometallurgy, Metallurgy of Iron and Steel, Metallurgical Thermodynamics and Transport Phenomena. Competence to establish professional networks and to maintain links with the industry, as well as experience in developing postgraduate programmes, strong management skills and a proven record of raising substantial research funding. A credible record of lecturing, peer-reviewed publications, community engagement, programme coordination, as well as supervision of students (research) at both under- and post-graduate levels will be an advantage.
